

DEMOCRATIC INNOVATION WHEEL

DESCRIPTION

The Democratic Innovations Wheel is a space to explore and develop your ideas about the change you would like for the future of our democracies. By working and thinking together, we can structure and refine our ideas to further materialize them.

RECOMMENDED TIME TO COMPLETE:

40 minutes – Break – 40 minutes

GUIDELINES

1. As a group develop an idea for an innovation you would like to propose. Write a **brief description** of your idea on a **Green Post-It** and place it in the centre of the wheel.
2. On the wheel, you have sections regarding each of the 6 Principles in the Cards. We also included some blank sections, in case that as a team you would add any other principle(s) to the wheel.
3. Using **Blue Post-Its**, write **what does your innovation needs to meet these principles** and place them in the **relevant** section. You can add as many notes as you consider necessary.

PAUSE

4. Taking the perspective of your **Thinking Hat** card, discuss among yourselves how to refine your idea and how to better meet these principles.
5. Using **Yellow Post-Its** write down the **new details or changes** to your idea and add them to wheel.
6. **Share your thoughts!**
